Medical Diagnostics Form
for athletes with physical impairment

The form must be completed in English by a registered medical doctor (M.D.) with a specialization of the Athlete's Health Condition.

The completed form with attached medical documentation must be uploaded to the athlete's SDMS profile upon registration of the athlete to the SDMS. This applies for all athletes with physical impairment competing in World Para Dance Sport. Depending on the athlete's health condition and impairment, additional medical information is to be attached to this form (see page 2).

Note

The measurement of impairment seen during athlete evaluation must correspond to the diagnosis indicated below. If the medical documentation is incomplete, World Para Dance Sport holds the right to request further information. In absence of such information, the athlete will not be able to proceed with Athlete Evaluation.
